Since improper use of the battery may cause leakage or explosion, strictly observe the following instructions.
- Insert the battery with the positive side (+) correctly facing up.
- Never throw the battery into a fire because it might explode.
- Keep the battery out of the reach of children.

Because the battery in the Organizer was installed at the factory, it may become depleted before the specified expiration time is reached.

2. Loosen the screw and remove the battery holder cover on the back of the unit.
3. Remove the exhausted battery by prying it out from the holder with the corner of the holder cover. (Fig. 1)
