Perfect peace of mind

**Admiral** 

There are some things in life you hope will never let you down. Like the washing machine that doesn't miss a beat when you return from holiday with bags bursting with laundry. Or the dryer that means you can shrug off the weather, forget the rain, and dry a mountain of clothes in no time at all. The things you take for granted...until they fail to deliver just when you need them most.

It's hardly surprising then that people choose Admiral. For 70 years Admiral has designed appliances that attract admiring looks, but whose sleek and classic exteriors conceal workhorse performance and show horse finesse. Appliances that pack in more reliability, practicality and robustness than anything else in their class. And do it in real style...with a host of features that are both practical and innovative.

Whatever life throws at you, Admiral's Genuine American Appliances mean perfect peace of mind.

## Admiral Washing

*They say when the going gets tough, the tough get going. And that's exactly what you can expect when Admiral takes a load off your mind by putting an impressive collection of programmes at your fingertips. Programmes that can tackle any wash...any time...with a mighty 7.5kg capacity that cuts down your workload too...and saves time, water and energy.*

The huge capacity of the washing machine means fewer loads...saving time, water, energy...and money. Whether washing a handkerchief or a duvet, Admiral's intelligent wash options deal with every eventuality...you can even complete a wash in under 15 minutes.

Admiral Tumble Dryer

And yet, despite its tough guy image, Admiral dries very, very carefully...tumbling and fluffing your wash so it comes out soft to the touch. There are even sensor dry programmes that turn off automatically before the wash is dry... perfect for ironing certain garments.

Some choices are hard. This one's easy.

## TUMBLE DRYER CONTROL PANEL

Fitted with soft rubber grips for easy selection of programmes including sensor dry programmes.

## LAUNDRY 7.5KG

Dry all this...in one go... in super quick time.

# History and Warranty

## HISTORY

In a Great Depression rags-to-riches story, Ross D Siragusa sold his automobile and much of his furniture to start a fledgling consumer electronics company. He was just 26. By the early 1950's his company - ultimately to be known as The Admiral Corporation - was a full-line home appliance manufacturer, eventually becoming synonymous with refrigerators and freezers, cookers, microwaves, air conditioners, dehumidifiers, radios and TV's.

By 1974 the company had been credited with over 75 consumer innovations...including introducing millions of Americans to colour TV. New owners then continued to build on the company's US-wide reputation for innovation, quality, expertise...and value, integrating new brands and manufacturing facilities which could trace their origins back to the great inventor, Thomas A. Edison.

Today, Admiral continues to represent the qualities demanded, not just by its American customers, but by a rapidly growing worldwide audience which is increasingly focussed on style, value...and exceptional build quality.
