

# DM™ 602 S2

## Stand-mount/Bookshelf loudspeaker system

### Product Summary

- The DM602 S2 is a 2-way vented-box system with a woven Kevlar® cone bass/mid driver which virtually eliminates distortions caused by radial waves travelling back and forth along the cone. The aluminium dome tweeter produces amazing open sound.
- The high quality cabinets are attractively finished in a choice of Black Ash or Cherry vinyl. In common with all other models the grey baffle, moulded in mica-filled polypropylene, forms a second layer to the wooden baffle adding stiffness and damping.
- A review from What Hi-Fi (July 1999) underpinned our belief in the speaker with comments including, "providing a fantastic level of refinement in a medium sized box and having enough bass weight and control to satisfy those into rock and dance. Great all-rounders and an excellent buy".

Awarded What Hi-Fi's prestigious five stars. July 1999.

Awarded HI-FI Choice Best Buy April 2000.

### Technical highlights

**Nautilus™ Tweeter:** B&W's Nautilus Tweeter technology ensures that the sound remains focused and time-sensitive and that the stereo-image is presented with unparalleled three dimensional accuracy.

**Kevlar®:** B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.
